**DETAILED ACTION**

1. Applicants' amendment to 09/896,059 has been examined. Claims 1, 7, 9, 11, 14, 17, 19, 21, 22, 27, 29, 30, 31, 36, 39, 47, and 54, 67 are amended. Claims 70-77 are added. Claims 1-9, 11-19, 21-36 38-44, 46-52, 54-59 and 61-77 are pending.

2. Applicants' amendment is persuasive in part. Any applicable objections/rejections are incorporated herein. A non-final action is required here because not all the changes required are necessitated by Applicants' amendment.

***Drawings***

3. The drawings are objected to: The clarity of the lines on all the figures are not uniformly defined and have poor line quality. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective

action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

4. Claims 1, 6, 11, 16, 21, 26, 30, 31, 39, 47, 54 and 66 are objected to because of the following informalities: Pursuant to claims 1, 11, 21, 30, 31, 39, 47, 54 change "and/or" to either - -an- - or - -or- - - to clarify and definitely define the step. Pursuant to claims 6, 16, 26, and 66, "said IC design" lacks sufficient antecedent basis. Pursuant to claims 7, 17, 27, 36, 52, 59, 67, and 70-77, in these Markush claims, it is unclear what or which "combinations thereof" are being referenced. Appropriate correction is required.

### ***Conclusion***
